

Responses to Suggestion Box Items – Jan – April 2018 Note: All suggestions are reviewed and sent to the appropriate director or department chair to follow up. Some of the suggestions and their responses are listed here.

Suggestions	Responses
Facilities	
<p>Defibrillators posted in each building and each floor in a visible location, easily accessible. Teachers trained to use in case of a cardiac arrest. I'd like to see all MTI's equipped with them. It will save a life. They might be around an i just do not know of,, I am a Multiple heart attack survivor. Thanks</p>	<p>This is being researched</p>
<p>Bathroom Stall hooks for all bathrooms</p>	<p>We are adding hooks to the bathroom stalls that are missing them</p>
<p>These class rooms are way too cold in the winter. We should not have to see our breath when we are in class. Please consider HEAT in class rooms, so we can stay healthy and focused.</p>	<p>For the temperature, please notify an MTI staff member at the moment you feel the temperature in a room is uncomfortable and we will address the issue.</p>
