

Responses to Suggestion Box Items Oct. – Dec. 2020. Note: All suggestions are reviewed and sent to the appropriate director or department chair to follow up. Some of the suggestions and their responses are listed here.

Suggestions	Responses
<p>No link to the software for students other than office 365. You have the information but not the websites name to get the software. Can you have John place the link on the home page please? Thank you very much.</p>	<p>Thank you for your suggestion. Since Microsoft Azure Dev Tools and the VMware Store are only available to technology majors, the links to those tools are listed on relevant technology classes. All technology students are encouraged to bookmark all links provided in the various Moodle technology classes. If you need a link or have further questions, please feel free to contact John Alcorcha at jalcorcha@mtcollege.edu.</p>
<p>Website Moodle functionality. This site needs a bit of work. The reason for the lack of participation seems like it's due to the fact that the site is not too friendly for users. I'm an advanced user and I have issues with the functionality. There is a lot of dated stuff on the site too.</p> <p>One more thing that is pretty important. Please ask teachers to respond to emails especially when they have been sent many. It seems rude to me that emails go unanswered from students. We pay good money for these teachers to assist us, Thanks</p>	<p>Thank you for your feedback. Please feel free to contact the Director of Education, Teri Dillon, at tdillon@mtcollege.edu to provide details on what can be updated on Moodle. I'd also appreciate your input as to challenges you've had with email responses from instructors.</p>
